Re: Cause No. 4:09-cv-1674; Ricardo Vargas, et al., v The Richardson Trident Company; In the United States District Court for the Southern District of Texas, Houston Division (Hon. Melinda Harmon)

Dear Mr. Felipe Rangel,

I would like to open with a much appreciated "Thank you" to you for your professionalism and prompt attention regarding this settlement matter. If it was not for Mr. Vargas stepping up and obtaining your law firm services, honest working citizens like myself and Mr. Vargas would not receive our deserved compensation. I just wanted to express my gratitude to you and the law firm you work for. Please forward this letter to your superiors.

You made it your mission, without fail, to track me down and make it known that I have a much deserved reimbursement from my previous place of employment. I know I am not an easy person to contact (track down) because I have moved a lot, changed my contact numbers, and I am never on one place for a long period of time. Thank you for your diligent efforts in trying to locate my whereabouts so that I can receive my part of the settlement verdict. Also, when you asked me to fill out the "Trident Final Disbursement Sheet", you did not hesitate to send my check when I returned the form. I received the check the very next day. Please forgive me for taking your valuable time in reading this letter of appreciation. Thank you again.
